

Welcome to the 37th Mayor's Night Out South Center Region

Bethel Park Aquatic Facility

- In the fall of 2008, the aquatic facility at Bethel Park was closed so that a complete rehab could be completed.
- The old pool leaked eight million gallons of treated water every season, making the outdoor play areas swampy all summer long.
- Public meetings were held to get community input as to the new design of the facility.

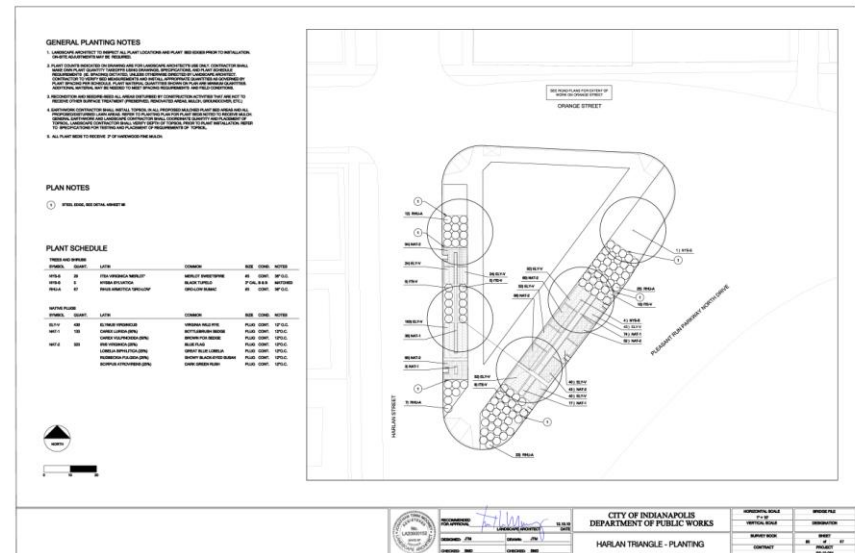

Bethel Park Aquatic Facility

- In 2008, the total open swim attendance was 5,748 for 10 weeks of operation.
- This year, the total open swim attendance was 5,189 for only five weeks of operation.

Miracle on St. Paul Part II

In September of 2010, over 300 Fuller Center volunteers from around the world helped to build 7 new homes and rehab 14 more.

DPW partnered with this effort by resurfacing St Paul and replacing the existing crumbling sidewalks.

Miracle on St. Paul Part II

- In September of 2011 many of them will return to build 2 more new homes on St. Paul.
- These 2 events will completely turn this once blighted block around.

Morris Street Bridge

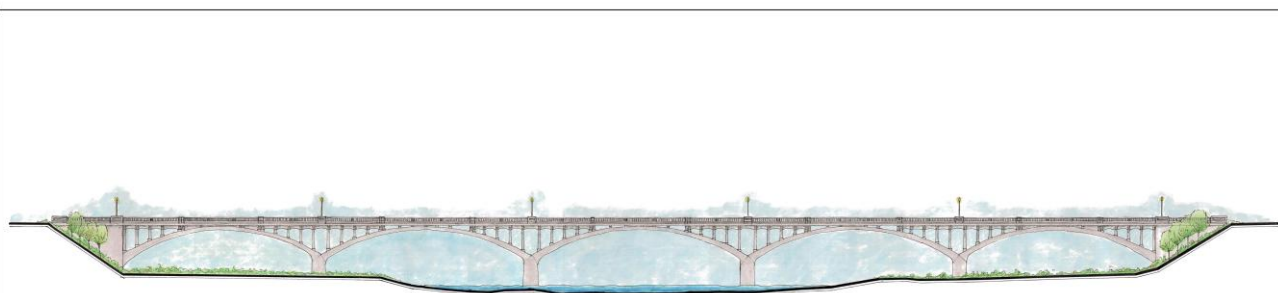

- Rebuild Indy brings infrastructure improvements to the near southwest side.

Play Ball, Indiana

- Citizens' Energy and Play Ball Indiana are working on an agreement that will turn the old Twin Aire Drive-in site into a recreational area for youth in Indianapolis.
- Play Ball Indiana continues working to acquire funds to make this community enhancement a reality.

GM Stamping Plant

- The City's primary goal for the site is to find another industrial user that will create a significant number of jobs.
- *"The former GM Stamping Plant can be among the greatest redevelopment opportunities in the history of our city."*
Mayor Greg Ballard

Indy Snow Force

SNOW REMOVAL IN YOUR NEIGHBORHOOD

- The City has already received more snow this year than last year—and winter isn't over.
- Anytime snow or ice is in the forecast, the City activates Indy Snow Force. The City will have at least 160 drivers salting and plowing the primary and secondary streets in a 24-hour period.
- It's the City's policy to remove snow in residential areas, if there's a snowfall of six inches or more during a single snow event.
- During February's ice storm, in an unprecedented move, Indy Snow Force went into neighborhoods and salted the streets. The City dropped salt on more than 4,000 lanes miles in residential areas.
- More than 200 contractors assisted Indy Snow Force with the salting and plowing of residential areas. This includes the connector streets, major streets and intersections near schools.
